Canoe and Kayak Float Trips

Greevy Access - Canoe and Kayak trips can be taken from the PFBC boat launch at Greevy Access 2.2 miles downstream to Kremser's Landing. Most of this trip is flat water with only one section of faster water. Paddlers can also go upstream at Greevy a few miles to the Dam in Williamsport.

Loyalsock Creek Float Trip – Canoe and Kayak Trips can be taken down Loyalsock Creek from the SR 973 bridge in Loyalsockville to Kremser's Landing (8.2 miles). Observe the power of water and habitat destruction from the hurricane as you float through an area hit with a 500 year flood. Some good smallmouth bass fishing can still be had in this reach. This float is dependent on summer flow conditions.

West Branch Susquehanna River Float – Canoe and Kayak trips can be taken from Kremser's landing approximately 7.6 miles to Muncy (3-4 hour float). This reach of river is very scenic and remote with several islands and back channels to explore. Easy paddling and float with excellent fishing and bird watching along the way.
